

Taufik Kurniawan

Data & Analytics Intern

0811 4040 470 | taufik.kurniawan1243@gmail.com | www.linkedin.com/in/taufik-kurniawan-29940041a

PROFILE

Undergraduate student with a strong interest in Data Analytics and using data to support decision-making. Possesses foundational knowledge of SQL, databases, and data processing gained through academic coursework and projects. Demonstrates strong analytical thinking, problem-solving skills, and a willingness to learn independently. Seeking an internship opportunity to apply and further develop Data Analytics skills in a professional environment.

EDUCATION

IPB UNIVERSITY

2025 - Present

Bachelor of Computer Science

Relevant courses: Statistics and Data Analysis, Statistical Methods, Database Systems, Programming, Algorithms & Programming

PROJECTS

Database Analysis Project

Academic Project | SQL

- Analyzed member and facility datasets using SQL to retrieve and organize relevant information.
- Applied SQL techniques including filtering, conditional logic, string matching, date operations, aggregation, and data deduplication.
- Used COUNT, MAX, MIN, AVG, SUM, CASE, DISTINCT, and UNION to categorize, summarize, and organize data.

Data Analysis With Microsoft Excel

Academic Project | Microsoft Excel

- Analyzed employee and sales datasets using Microsoft Excel to organize and summarize structured data.
- Applied Excel functions and data aggregation techniques to calculate totals and summarize data across different categories.
- Used SUBTOTAL to calculate category-based and company-level sales totals.

TECHNICAL SKILLS

- SQL: Data querying, filtering, aggregation, JOIN, GROUP BY, HAVING, CASE, UNION, DISTINCT
- Microsoft Excel: Data organization, data summarization, formulas, SUBTOTAL
- Database: Relational databases, basic database querying
- Programming: Basic programming and algorithms
- Data Analysis: Basic data processing and statistical analysis
